

**Patient Alliance for Neuroendocrineimmune
Disorders Organization for Research and Advocacy**

It is estimated that 20 million Americans are stricken with neuroendocrineimmune disorders (NEIDs). The majority are severely disabled by the brutal and real impacts of these illnesses.

P.A.N.D.O.R.A. is HERE for each individual who is stricken by Chronic Fatigue Syndrome (CFS/ME), Fibromyalgia (FM), Gulf War Syndrome (GWS), Environmental Illnesses (EI), and/or Chronic Lyme Disease (CLD). These illnesses strike men, women, and children of every age and all social, economic, and ethnic backgrounds.

*Help us to find a cure for NEIDs.
Donate, Volunteer, and Speak Up for someone
whose voice has been silenced by NEIDs.*

We will show you how.
